A PLACE FOR EVERYONE: SETTING A COMMUNITY AGENDA

OBJECTIVES

As part of its 30th Anniversary celebrations, OCISO is presenting a one-day conference to highlight critical issues facing immigrants in our community, and to propose possible move-forward solutions.

The goal of the conference is to bring community service organizations, public institutions, academic researchers, educators, funders, immigrants, and the broader Ottawa community together to begin a dialogue that will articulate and envision a new way of immigrant engagement and social inclusion in the city of Ottawa in the context of their importance to our community's economy, social vibrancy and overall wellbeing.

Specific objectives are to:

1. highlight critical issues related to the engagement and inclusion of immigrants in our community;
2. facilitate dialogue and community conversations; and
3. propose possible move-forward solutions.

DETAILS

The conference will take place on Thursday, November 20th, from 9 am to 4 pm at the Cleo Banquet and Convention Centre, [156 Cleopatra Drive](#). Lunch is included for all participants.

For participants attending from non-profit organizations, business, government, or academic institutions, **the cost is \$50**.

In the interests of ensuring all voices are heard, there is **no charge** for students, immigrants and refugees, and community members not affiliated with an organization.
